

Medium- High Pressure Filters (SMALL TYPE)

- Working pressure : 110 bar
- Test pressure : 250 bar
- Minimum burst pressure : 300 bar

The purpose of FOA:

FOA is suitable in the lower capacity, and low pressure lines, for example, lubrication system, special-purpose machine, grinder machine and so on

This product uses the aluminum alloy, exquisite and does not occupy the space. Complete lines of pressure differential visual and electrical indicators are available with this series of filters.

- Materials : Aluminium Alloy
 - Weight : 1.2KG / Set
- (The weight is not including element.)
